Cash Bar	Guest pays individually for all their own alcoholic beverages
Consumption Bar	Just like running a bar tab. The bartender tallies each drink purchase. Bar tab is then paid at the end of the event.
Drink Tickets	You pick the number of drink tickets per guest and then distribute them to each guest. The guest will turn in the ticket to the bar. The bartender tallies the total for each drink and the bar tab is paid at the end of the event.
Bar Spend	You pick a pre-determined budget amount for the bar and once that amount is hit then we can convert over to cash bar, where the guest pays individually.
